

ROTC offers a Rubber Tired Gantry Crane Driver Course. This course has been developed for inexperienced RTG drivers. This course aims to get inexperienced drivers at the same level as their experienced colleagues within a relative short period of time.

## Topics

Topics that will be addressed during the course are:

- Roles of the Terminal's Logistic Process;
- Layout of (Container-) Yards;
- Types and Purposes of Rubber-Tired Gantry Cranes;
- Stability of Rubber-Tired Gantry Cranes;
- Hoisting materials;
- Safe Working;
- Daily Checks and Maintenance;
- Team Work;
- Practice Driving and Handling.

## Prerequisites

- Working experience on forklift and/or reach stacker is a benefit;
- An active learning attitude and ability to work in teams;
- Basic English comprehension skills are beneficial, but not required. If necessary, a translator will be present;
- A minimum of High School level education.

## Duration & Start Date

The course duration is 15 days (inexperienced drivers). A short training for experienced drivers takes place in 5 days. Please also refer to the Tailor-Made section below. Please contact ROTC for the course schedule.

## Price

Please contact us for further details.

## Additional Information

- Training is provided in Portuguese and/or English;
- Courses will be executed in-company or at an alternative training location;
- Client to provide all relevant equipment, PPE and facilities;
- Participants successfully completing the course will receive a ROTC Certificate of Proficiency.
